

**We at 481230 Ontario operating as Otonabee Dairy Farm at 1184 Crowley Line Peterborough Ontario are pleased to select Global Point Energy for our rebuild for our new solar project. Recently we have experienced a barn fire which destroyed our facility and roof top solar project that Global Point Energy originally installed. Thankfully no one was hurt and as a result of the findings the solar was not the cause of the fire. We have decided to reconstruct our solar on our new barns. Global Point Energy is a name we trust, that brings experience and proven track record. Our experience with Global Point Energy has been very positive and we are happy to offer them our solar install contract.**
